In addition to the already outstanding cabinet construction you have come to expect from Traulsen, these dependable roll-thru hot food holding cabinets are built using our high performance ducted fan air distribution system. Unlike designs which simply radiate heat, this minimizes temperature stratification inside the cabinet, while providing for quicker daily start-up, lower energy usage, and reduced lifetime service costs. Each is supplied standard with easy to operate microprocessor controls and stainless steel exteriors.

Standard Product Features

- R-Series: Stainless Steel Exterior & Interior
- A-Series: Stainless Steel Exterior/Anodized Aluminum Interior
- INTELA-TRAUL® Microprocessor Control System
- Ducted Fan Air Distribution System
- Standard Operating Temperature Range 140 to 180°F
- One-Time Start-Up Temperature Adjustment Feature
- ON/OFF Switch Located On Control Face
- Full Length Stainless Steel Doors With Locks
- Self-Closing Doors With Stay Open Feature At 120°
- Guaranteed For Life Cam-Lift Hinges
- Guaranteed For Life Horizontal Work Flow Door Handles
- Standard Door Hinging F & R: 132LP = Right, 232LP = Left/Right, 332LP = Left/Right/Right (other hings available)
- Automatically Activated LED Lights
- Stainless Steel Breaker Caps
- Accommodates Roll-In Racks Up To 66" High (provided by others)
- Magnetic Snap-In EZ-Clean Door Gasket(s)
- Stainless Steel Door Liner
- Stainless Steel Interior Rack Guides
- Stainless Steel Threshold Ramps
- Stainless Steel One-Piece Louver Assembly - Front & Rear
- 9' Cord & Plug Attached (one section models only)
- Three Year Parts And Labor Warranty

Options & Accessories

- Re-Hinging Feature For Doors
- Wire Shelf Package For Roll-In Models (includes three wire shelves per section)
- Additional Wire Shelves For Above
- Stainless Steel Shelf Package For Roll-In Models (includes three stainless steel shelves per section)
- Additional Stainless Steel Shelves For Above
- Locking Hasps (padlocks supplied by others)
- 115/60/1 Voltage (single section models only)
- Export 220/50/1 Voltage
- Kool Klad Exterior Laminate Decor
- Clear Glass Door(s) In Place Of One Or More Solid Door(s)
- Fluorescent Lights
- Prison/Correctional Facilities Options

Listed by Underwriters Laboratories Inc., to U.S. and Canadian safety standards and Listed by NSF International.

Specifications

Construction, Hardware and Insulation

Cabinet exterior front, one piece sides, louver assembly and doors are constructed of 20 gauge stainless steel with #4 finish. Cabinet interior and door liners are constructed of stainless steel (anodized aluminum in the A-Series). The exterior cabinet top is constructed of heavy gauge galvanized steel. The interior floor and exterior bottom are constructed of stainless steel and insulated with ¾" of resilient cork. A readily attachable stainless steel ramp is provided.

Doors are equipped with a heavy-duty, extruded wiper gasket for sealing to bottom ramp, removable plug cylinder locks and guaranteed for life cam-lift, gravity action, self-closing metal, glide hinges with stay open feature at 120°. Hinges include a concealed switch to automatically activate the interior LED lighting. Guaranteed for life, work flow door handles are mounted horizontally over recess in door which limits protrusion from door face into aiseways. Doors have seamless, polished metal corners.

Gasket profile and Santoprene® material simplify cleaning and increase overall gasket life.

Both the cabinet and doors are insulated with an average of 2" thick high density, non-CFC, foamed in place polyurethane.

NOTES

NOTE: Figures in parentheses reflect metric equivalents.

- 1= Please note that the available cabinet width narrows for 6" from the top of the door frame to 25-7/8" in order to allow for the heater fans.
- 2= For shipping weights and dimensions please refer to form TR35875.
- 3= Heater is capable of operation from 208V to 240V as supplied standard. Actual amp figure will change at any voltage other than 208.
- 4= Figure shown for optional 115V.

Equipped With One NEMA L14-20P Plug
(1 section models @208V only)

Equipped With One NEMA 5-20P Plug
(1 section models @115V only)

NOTE: When ordering please specify: Voltage, Hinging, Door Size, Options and any additional warranties.

Continued product development may necessitate specification changes without notice.
Part No. TR35794 (REVISED 01-14-19)

Heating System

A low watt density, serpentine style, heater is employed for the generation of electric heat. Low velocity air is forced across its large surface area to efficiently move heat radiating away from these through a down-air distribution duct, where it is then evenly distributed throughout the cabinet, assuring the proper holding environment for hot food product, without drying. A vent, located at the top of the cabinet, is included for positive humidity control.

Controller

Traulsen's Smart Control features advanced control algorithms and sophisticated diagnostic capabilities. Smart sensors will adapt the operation of the system to a variety of environments and usage patterns. The Smart Control offers a complete set of visual alarms designed to alert the user to critical events. In the event of an alarm, a dedicated Alarm LED will illuminate, informing the user of the critical event and describing the event in the large, easy to read full text display.

Interior

Readily removable, interior-mounted, stainless steel guides for rack are provided for protection. Maximum rack size with wheels inboard of frame is 27" wide by 29" deep by 66" high. Racks supplied by others.

Warranties

A three year parts and labor warranty is provided standard.
